

Since its foundation in 1883 by Lewis Edson Waterman and the invention of the first reliable fountain pen, the WATERMAN brand had constantly sought to innovate. With a long history rich in creativity, it has become a true reference in the world of writing. At the beginning, of this new century, WATERMAN is asserting its personality more than ever through its exceptional know-how and spirit of innovation. Each pen is unique, exclusive and continues to reflect the character and temperament of its owner.
